

Hitachi Construction Machinery

PREMIUM USED

Quality that you're **used** to

Hitachi Construction Machinery (Europe) (HCME) offers a range of used models to meet your needs, with a smaller price tag than a new machine. These are offered through the 'Used' and 'Premium Used' programmes, which have something for everyone.

HITACHI

Reliable Solutions

Used equipment

Used excavators and wheel loaders are available across Europe from our dealer network. Used models are more affordable than new and may be a better financial option if you only require a machine for a specific task or limited use.

Hitachi Premium Used

Looking for more reliable used construction equipment? Hitachi Premium Used offers high-quality machinery that ensures productivity and efficiency on your job site. So, why choose Hitachi Premium Used?

HITACHI

Reliable Solutions

Maximum five years old

With up to 7,500 working hours (or 3,500 hours for mini excavators less than seven tonnes).

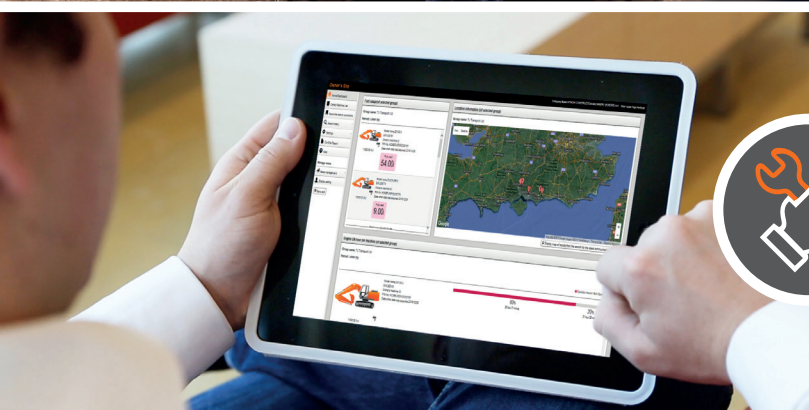

Reliable performance

Hitachi Construction Machinery Premium Used machines comply with our strict requirements and undergo thorough testing and maintenance by authorised Hitachi dealers to guarantee their reliability.

Approved warranty

When you buy a Hitachi Construction Machinery Premium Used machine from an authorised dealer, it comes with an approved Hitachi warranty (12 months or 1,500 hours).

Full maintenance history

machinery selected for Hitachi Construction Machinery Premium Used is no more than five years old, with full maintenance history via Global e-Service.

Which (Premium) used machines are available?

Click the button on the right to visit our used equipment inventory and see the models available via your authorised dealer.

Listings include important information about the model, such as year, location, hours operated and modifications – alongside photography and contact details. Visit used.hitachicm.eu.
